

Week 6 Progress Meeting presentation

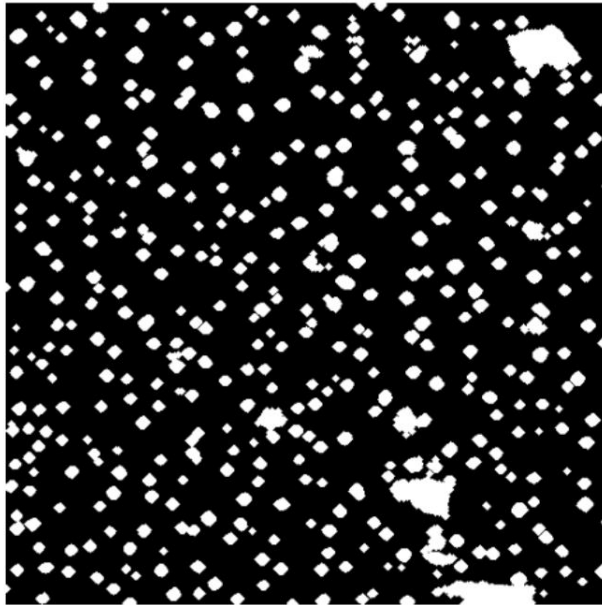

By Poline S

Image preprocessing

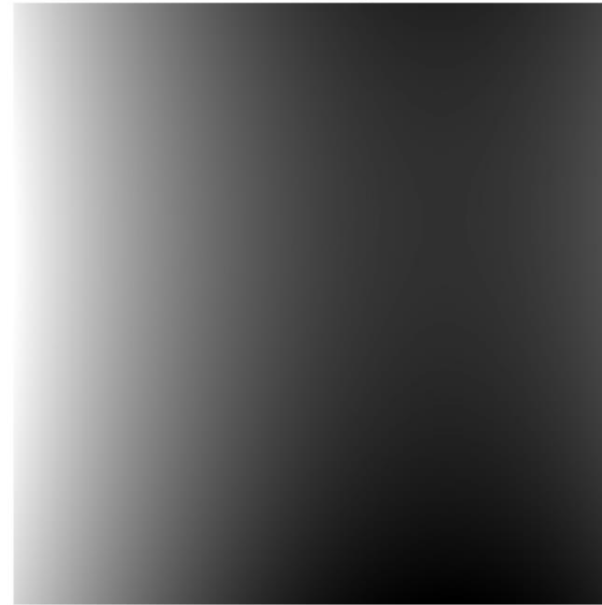

Raw

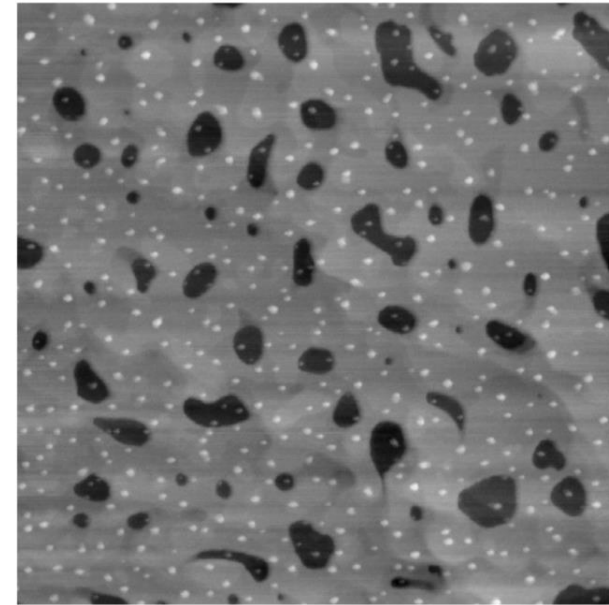

Excluded foreground

Estimated background

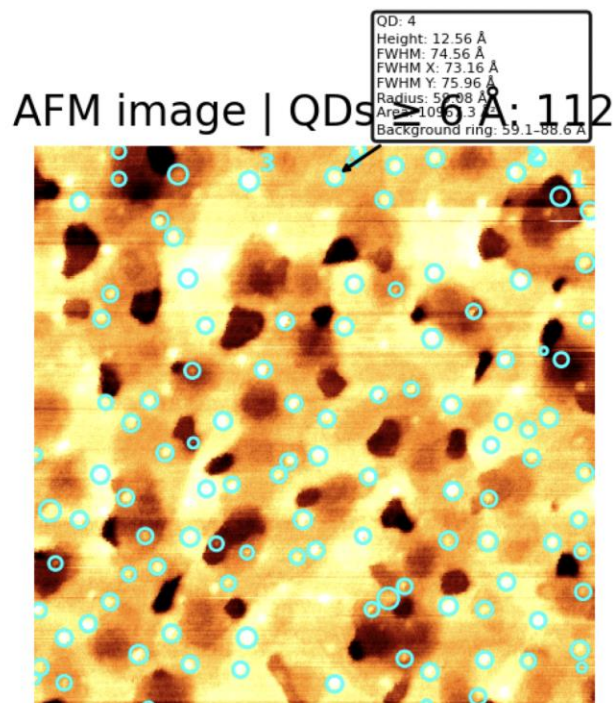

Foreground-aware flattened

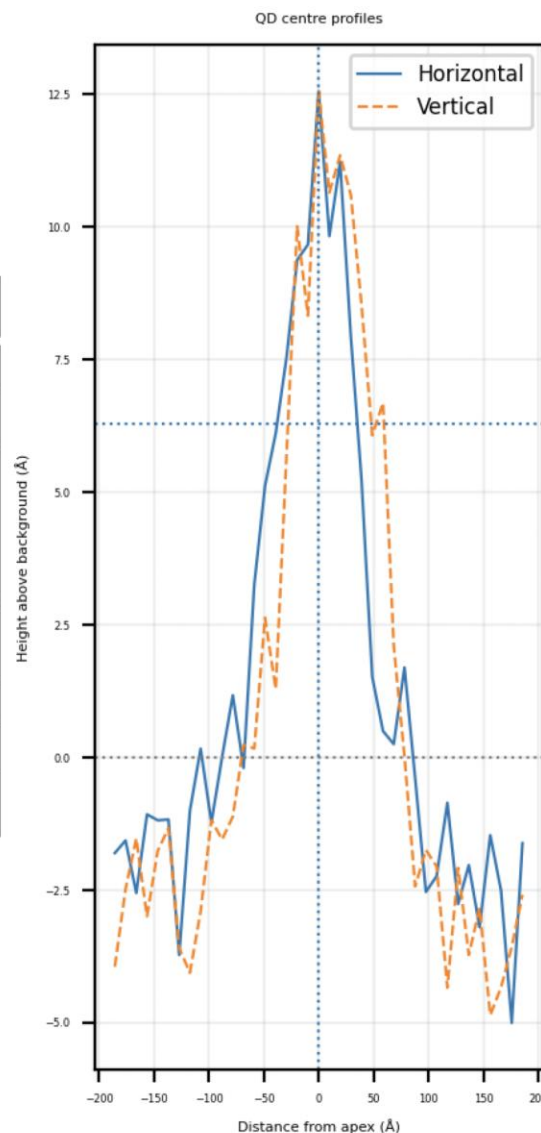

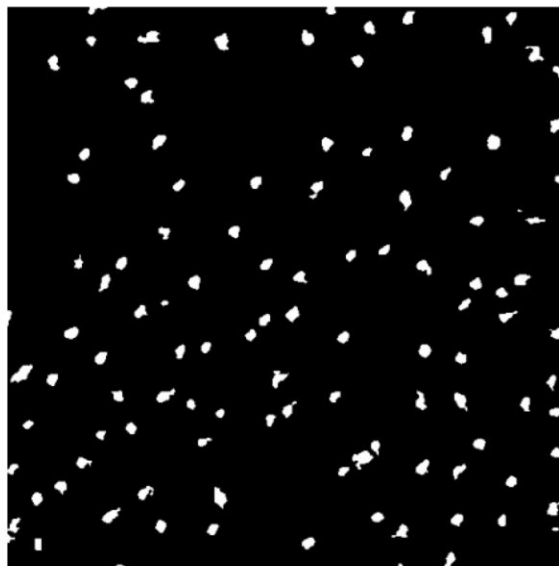

Taken inspiration from:

<https://www.beilstein-journals.org/bjnano/articles/9/91>

QD Labelling App

Final binary mask

1. Added FWHM values, and converted pixels to Angstroms
2. Graph for height display so that it is easier to identify the QDs
3. Can label QDs and map their heights and FWHM to the ground truth

Ground-Truth	
Height-HWFM
